PROFILE

Video editor creating brand content since 2023: freelance projects (skits, podcasts, ads) and, since 06/2026, full-time Video Editor at Zero Markets Vietnam, cutting around 15 videos a week. I focus on what keeps people watching: the hook, the pacing, how information lands, and motion text that fits each brand. A marketing degree from UEH means I edit toward the communication goal, not just for looks.
